MUSO

The ICMP Anti-Piracy Platform, powered by MUSO, protects digital media from piracy, safeguarding your IP and revenue.

ICMP, the global voice of music publishing, has partnered with MUSO to provide content protection services to its members worldwide.

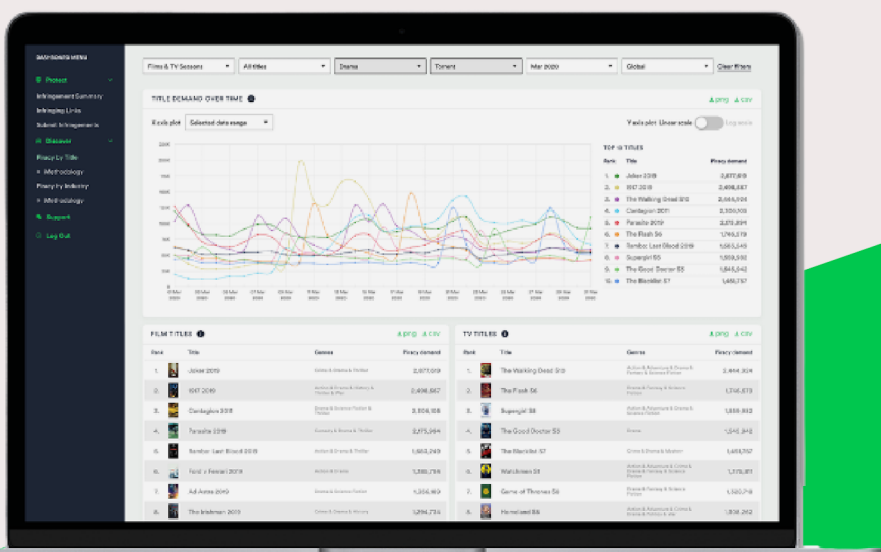

Unauthorised usage of copyrighted sheet music is a significant problem for music publishers globally and is an industrialised and commercialised activity.

The ICMP Anti-Piracy Platform (APP) protects digital media from piracy, safeguarding your IP and your revenue. That's why MUSO have partnered with ICMP, the global trade body for the music publishing industry. We're chosen as a content protection partner by many of the world's leading media and entertainment businesses.

Take control of your content. Get maximum value from your IP.

With The ICMP Anti-Piracy Platform, we can help you safeguard your investment and digital media, specifically your digital sheet music, printed works, songbooks and graphic rights.

We will provide ICMP member MPAs and companies with a tech driven tool to notify and remove a wide range of infringing content.
